

InterKnit Machine Knitters Guild

August 2009 Newsletter

Plans for August are to demo [Ravelry.com](http://www.ravelry.com) and show you all a little bit of what this FREE resource can offer you! This will be presented by Rebecca Stewart who asks: If you are a member of Ravelry already, please send me your Ravelry name, or better yet, add me as a friend (I am Reba1). I am planning to start a group on Ravelry for the InterKnit Machine Knitter's Guild. In order to start a group, I need three members. For a sneak peek visit <http://www.ravelry.com/tour/peek> . Our meeting will be in Building K Room 161 at 10am

August will also be our last gathering before Stitches Midwest! The InterKnit booth will on a corner at #218. Our participation in Stitches will be in place of our September meeting.

Fiber Fest was a learning experience for visitors as well as our club volunteers. People stopped to try some of the machines, ask questions about how to cast on. There were a few "I've got one of those" Many took our brochure and a few shared their email address. Perhaps we'll have some new faces soon. Fiber Fest was a good test case to prepare for Stitches and there's still time to volunteer! Submit something as a sample or a short block of time before or after taking in the sites.

If anyone has photos from Fiber Fest please forward them to our web master or send them to the email your newsletter comes from. A big InterKnit THANK YOU to ALL the volunteers as well as a special thank you to D. McQueen for our new club banner! It looked great worked into the display.
