Knitting FYI Knitters Review an online site for hand knitters has reviews of yarns and new publications. Recently a review of **Color Works: The Crafters Guide to Color** by *Deb Menz*. With Color 101 being covered by Michael Becker I thought it a timely addition to share with you all. Visit: http://knittersreview.com/article_book.asp?article=/review/reading/050127_a.asp to see this review and perhaps look at their collection of yarn critiques.
