The "Top Five" list has sent your editor down the "Rabbit Hole" commonly known as the Internet. The list is half way charted with my wallet still intact and to date no additions to my SABLE yarn. (Although my wish list has grown!) The "Top Five" list will be ready for you all to make your journeys as well very soon. There are some sites that promote women's businesses as well the environment along with some "old friends".

Thank you Walt
