

InterKnit Machine Knitters

Sept. 2006 Newsletter

No place like home! IC 1000 will be our new home. IC is the Instructional Center (actually the Berg Instructional Center). It's the long, low "rusty" looking narrow building immediately next to (west of) the McAnnich Arts Building. If you've attended some of our recent seminars turn to head for that room but keep following the corridor past the glass wall art display room. Due to construction parking is suggested to the south or west end of the buildings. Hope to see you at 10 a.m.! Attached is a map or visit www.interknitmk.org so you can compare maps.

September 9th Creating inexpensive blocking equipment – Demo by Kathy Westbrook. If you've a spare wire hanger (no cardboard tubes now) to bring, it can go home as a sock blocker. Methods for other blocking techniques and equipment are the topic of the day. **ALSO! This is the month for Show & Tell from our Brown Bag Exchange!**

Lorna's Laces Field Trip: With a turn out of at least 21 members I trust we could call that a successful field trip! But who won the Yarn Purchase Contest? Most were impressed by the mill end prices, colors and the actually dying process.

Don't Forget October is Charity Knit Month! Bring a machine and knit or bring things to finish. Its sooner then you think!

2006 Seminars and Workshops

Sept 8-9, Twin Rivers Seminar, Columbus Junction, IA, contact Ileen's Needle Nook,

1-800-221-NOOK, 1-573-221-9456, or ileen@ileen.com.
